Suite Crime vs. Street Crime

For this week's assignments please do the following things:

- Find an example of two crimes, one <u>street crime</u> and one <u>suite crime</u> (corporate or white collar) in the news.

- For each crime, note the following things:
    - What type of language was used to describe the crime itself?
        - Was it painted as something terrible, questionable, not a big deal, etc.?
    - How was the perpetrator identified?
        - Were race, ethnicity, class, gender or sexual orientation mentioned? Was there a picture?
    - Like with the perpetrator, how was the victim identified?

- Which of the two crimes was easier to find? Why do you think this was the case?

- What does the description of the crime, perpetrator and victim make you feel about each of these crimes?
    - Which one makes you feel worse about crime in our society?

As always, be sure to use proper citation for any facts, figures, or quotes from the news stories and other sources that you include in this assignment.
